

Secondary Student Password Change

Start on the Mukilteo School District webpage:
mukilteoschools.org

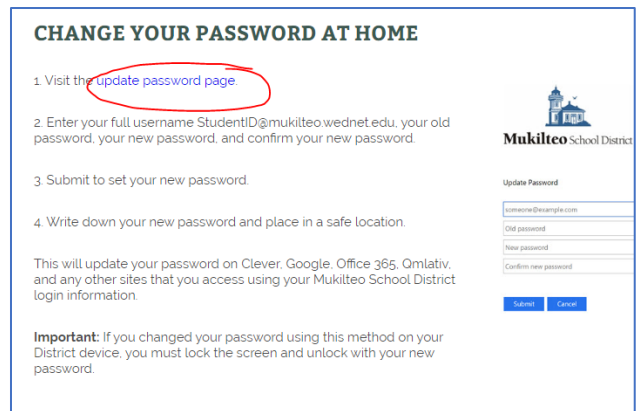

Click the **Student Portal** button

Click on the **Change Your Password** tile

Read the directions on the screen, and when you are ready, click the blue 'update password page' link.

Enter your student ID number followed by @mukilteo.wednet.edu in the top box.

Then enter your old password. If you don't know your old password, contact your teacher for assistance getting your password reset. You will be set to a default password, which will then go in the 'Old password' box.

Enter your new password, and confirm it.

New passwords must have upper and lower case letters as well as either a number or special character. You cannot have used the same password recently, and your password cannot contain part of your name.

Click **Submit** when you are finished, and that will complete your password change.
