

**Mukilteo School District  
ACCELERATED SCIENCE PATHWAY AGREEMENT  
2023-2024**

**Student:** \_\_\_\_\_

**High School:** \_\_\_\_\_

Three credits of Science are now required for students to graduate from high school. Physical Science of the Universe is a required 9<sup>th</sup> grade lab science class. This course has been redesigned to prepare students for the new comprehensive Next Generation Science Assessment (NGSA) at the end of 11<sup>th</sup> grade.

Students who choose the Accelerated Pathway will take Biology of the Living Earth in 9<sup>th</sup> grade and Honors Chemistry of the Earth in 10<sup>th</sup> grade. Honors Physics will be taken in 11<sup>th</sup> grade to ensure that all science standards have been taught prior to taking the NGSA at the end of 11<sup>th</sup> grade.

In order to be successful in the Accelerated Pathway, students should meet the following recommended qualifications:

- Have successfully completed Algebra at the middle school level
- Have passed 8<sup>th</sup> grade science with a “B” or better
- Have an interest in pursuing a science-related or engineering career

As the parent/guardian of: \_\_\_\_\_,

- I am in agreement that my child should enter the Accelerated Pathway for Science.
- I understand that in the Accelerated Pathway, my child will be required to enroll in **Honors Chemistry in 10<sup>th</sup> grade, and Honors Physics in 11<sup>th</sup> grade to ensure adequate preparation for the NGSA at the end of 11<sup>th</sup> grade.**
