MUKILTEO SCHOOL DISTRICT CAREER AND TECHNICAL EDUCATION MISSION STATEMENT:

Mukilteo School District's Career and Technical Education (CTE) programs strive to provide authentic learning experiences that prepare students to be Career and College Ready in the 21st Century. CTE empowers students to be strong leaders, workers and citizens through hands-on opportunities in and out of the classroom.

CTE...preparing students for the 21st Century!

WHAT IS CTE?

Career and Technical Education prepares students to be College and Career Ready in the 21st Century, with an emphasis on real world and real life experiences. CTE connects students with academics and training to prepare them for their future.

WHAT ARE CTE ADVISORY COMMITTEES?

Program Advisory Committees (PAC) are composed of business and industry members and post-secondary partners. They use their knowledge and expertise in the content area to advise the instructors on current industry needs and trends, and provide support and connections with industry to enhance instruction in the classroom.

General Advisory Committee (GAC) provides guidance and support to the CTE administrator and the PACs, leveraging their expertise, knowledge and skills to inform the goals and direction of the overall CTE program, to better prepare students to be College and Career Ready in the 21st Century.

WHAT DO PROGRAM ADVISORY COMMITTEES DO?

1. Advise instructors regarding business and industry needs, changes and trends.
2. Provide support for CTE programs as needed.
3. Assist with the program renewal process.
4. Work with instructors to form short and long term goals to guide program areas.
5. Review and validate program effectiveness.
6. Strengthen the relationship between business, industry, the community and student learning.

Manufacturing Technology

WHAT ARE ADVISORY COMMITTEE MEMBER'S RESPONSIBILITIES?

1. Attend a minimum of three advisory committee meetings per year.
2. Inform programs of business and industry needs, changes and trends.
3. Work with committee members and other stakeholders to develop goals and recommendations to improve student learning in CTE programs in the Mukilteo School District.

In the Mukilteo School District the **General Advisory Committee (GAC)** and 10 **Program Advisory Committees (PAC)** dedicate their time, energy, ideas and expertise to providing rigor, relevance and strong relationships through CTE.
