# My Reading Timeline

Directions: Books can easily become an important part of our lives and shape who we are at different times. To share these important reading moments, I want you to create a timeline of your six favorite book memories.

For each event on your timeline you will include:

- ✓ The title of the book
- ✓ A picture/drawing of the cover
- ✓ The time of the event or your age/grade

Then choose two of the events and write a sentence or two describing why these books are important in your life.

Begin by creating a rough draft using the template given. Get the rough draft checked off by the teacher to get the final draft paper and tape.
