

**Mukilteo School District
ACCELERATED SCIENCE PATHWAY AGREEMENT
2021-2022**

Student: _____

High School: _____

Three credits of science are now required for students to graduate from high school. Physical Science of the Universe is the required 9th grade lab science class. This course is designed to prepare students for the comprehensive Washington Comprehensive Assessment of Science (WCAS) at the end of 11th grade.

Students who choose the Accelerated Pathway will take Biology of the Living Earth in 9th grade and Honors Chemistry of the Earth in 10th grade. Honors Physics will be taken in 11th grade to ensure that all science standards have been taught prior to taking the WCAS at the end of 11th grade.

The following qualifications are strongly recommended for students choosing the Accelerated Pathway:

- Have successfully completed Algebra at the middle school level
- Have passed 8th grade science with a “B” or better
- Have an interest in pursuing a science-related or engineering career

As the parent/guardian of: _____,

- *I am in agreement that my child should enter the Accelerated Pathway for science.*
- *I understand that in the Accelerated Pathway, my child will be required to enroll in Honors Chemistry of the Earth System in 10th grade, and Honors Physics with Earth Science in 11th grade to ensure adequate preparation for the WCAS at the end of 11th grade.*
